Evergreen Seed Price List

## TERMS

Prices: All prices are FOB, Golden, Colorado.  
Postage paid if payment is included with order.

Payment: 30 days net

Guarantee: Our seed is guaranteed to be true to specie. As we are the collectors, we are able to keep close control on the quality of our seed.

Certification: We do not furnish germination tests. Cut test is furnished on request.

Our seed is well cleaned, current crop only and of high viability.

Information as to elevation of collection is available and indicated where needed.

Exact watershed area information will be furnished on request.

All shipments should be inspected upon arrival. Claims for damages in transit must be submitted to the carrier by the buyer.

One-half pound quantities at pound rate. Ounces at 10 % of pound rate.

FIR [Abies]	per lb.
Concolor	\$3.25
Alpine [lasiocarpa]	6.00
Corkbark [lasiocarpa arizonica]	8.00

### NOTE:

Seed of the above true firs retains good viability one year only. Please order early. We do not collect beyond our orders.

### DOUGLAS FIR [Pseudotsuga taxifolia]

Colorado Douglas fir is collected from elevations of 6,000 to 10,000 feet. It is a popular variety for Christmas tree farming, and very frequently bl

## SPRUCE [*Picea*]

Engelmann \$8.00

We selectively collect from blue stands only.

Blue Spruce [*pungens glauca*] 9.00

Elevations of 7,000 to 9,000 feet. Blue spruce is so plentiful in Colorado that we are able to collect in the most spectacular areas for the best color and shape.

## PINE [*Pinus*]

Bristlecone [*aristata*] 8.50

This is a slower growing five-needle pine with bushy appearance. It is distinguished for its resin specked needles and dark green color.

Lodgepole [*contorta latifolia*] 10.00

Pinon [*Edulis*] 3.00

Two and three needles to a cluster. It has a carrot like root. We recommend seedlings be root pruned a year before transplanting. A very popular landscape tree.

Limber [*flexilis*] 3.50

A five-needle pine with bluish colored long slender needles and whitish bark. Transplant with care as Pinon.

Ponderosa 4.50

Elevation 5,000 to 7,000 ft.  
A lighter green than Austrian pine.  
Very drouth and cold resistant.  
Considered to be a hardy and non-yellowing variety.

\$10.50

of 6,000 ft. to 8,000 ft. It is most hardy  
ly bluish in color.
